Revenue expanded to US\$22.0mln compared to US\$17.8mln on a year-over-year basis, handily beating consensus estimates of US\$20.04mln.

"Strong revenue and record backlog in the first quarter reflect continued execution on our strategy to leverage our industry-disrupting technologies to build demand with new customers and across new geographies," said Clough.

Last week, CUI Global's subsidiary Orbital Gas Systems North America unit received orders for its gas sampling technology from what it described as "several Fortune 100 energy companies in the oil-and-gas industry based in Houston, Texas."
