

Hammer Metals.

Complete ownership of Millennium, a 3.1-million-ton cobalt-copper project in the Mount Isa region of Queensland, Australia, gives GEMC full control of future development at the site.

Cobalt is the dominant economic metal within the deposit and, with the strengthening price of the energy metal, GEMC will remodel the deposit on a cobalt-equivalent basis.

The outright acquisition of Millennium adds an exciting scalable cobalt-dominant project to the group's portfolio of assets.
