VolitionRX encouraged by early data on its Nu.QTM blood test as potential tool against coronavirus

VolitionRx Limited's (NYSEAMERICAN:VNRX) Cameron Reynolds tells Proactive's Andrew Scott they've been investigating how its Nu.QTM platform might be clinically useful as either a diagnostic or prognostic tool for COVID-19 and that they've been encouraged by some of the early data.

He says they've recently conducted a proof of concept study involving 34 COVID-19 positive subjects and 50 control subjects.

The announcement was made alongside Volition's first quarter results which showed they ended the period with \$12 million in cash and cash equivalents.

Company Synopsis:

Volition is a multi-national life sciences company developing simple, easy to use blood-based cancer tests to accurately diagnose a range of cancers. The tests are based on the science of Nucleosomics®, which is the practice of identifying and measuring nucleosomes in the bloodstream or other bodily fluid -- an indication that disease is present. .
