NA Proactive news snapshot: Predictmedix, Goldcore Resources, Metalla Royalty & Streaming, GlobeX Data UPDATE ...

Predictmedix Inc (CSE:PMED) (OTCQB:PMEDF) provided a corporate update on commercializing its infectious disease screening technology and telemedicine remote patient monitoring platform Mobile Wellbeing. Predictmedix hopes to roll out its Mobile Wellbeing in the first quarter of 2021. The Toronto-based company acquired Mobile Wellbeing in June and plans to integrate it with the company's existing artificial intelligence-driven rapid screening system for infectious diseases, including coronavirus (COVID-19). "Mobile Wellbeing acquired by Predictmedix is particularly strategic from the point of turning our screening solutions into enterprise solutions with back end patient or employee return-to-work monitoring," the company said in a statement. The firm's recent Mobile Wellbeing acquisition allows Predictmedix to enter the growing clinical trials and telehealth markets.

Goldcore Resources Ltd (CVE:GEM) (FRA:BK2P), formerly known as Berwood Resources, announced Tuesday that it has entered into a definitive agreement to acquire mineral claims near a high prospect for gold and silver. The Stallion Project in British Columbia's famous Golden Horseshoe region is contiguous to Benchmark Metals Inc's (CVE:BNCH) (OTCQX:BNCHF) Lawyers gold and silver project, Goldcore said in a statement. The Lawyers project has reported core length intervals from drill intercepts of 2,360 grams per tonne (g/t) silver and 11.3 g/t gold over 1 metre (m), 1.2 g/t gold, and 22.2 g/t silver or 1.4 g/t gold equivalent across 102m as well as 30.6m of 2.1 g/t gold and 107.1 g/t silver or 3.4 g/t gold equivalent.

Metalla Royalty & Streaming Ltd (CVE:MTA) (NYSEAMERICAN:MTA) has appointed Saurabh Handa as its new CFO, effective November 1, the company announced Tuesday. Handa provides consulting services to mining companies through his own firm, Handa Financial Consulting Inc. Overall, he has more than 15 years of senior level experience as a mining professional, including as CFO of Titan Mining Corp. Handa will be replacing Bill Tsang, who has served as Metalla's CFO since May 2017.

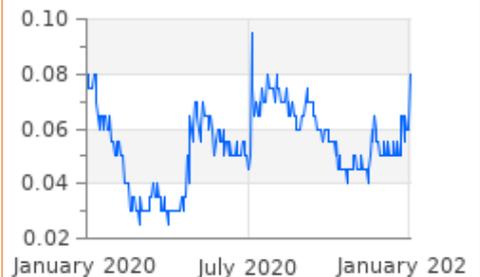

Metalla Royalty & Streaming Ltd (NYSEAMERICAN:MTA) (CVE:MTA) said Tuesday that Sandfire Resources Ltd has entered into a farm-in agreement with CBH Resources Ltd to earn-in up to a 100% interest in the Endeavor mine and surrounding exploration tenements. The Endeavor mine is a zinc, lead, and silver deposit located near Cobar, New South Wales. Metalla holds a 100% by-product silver stream on the Endeavor mine.

GlobeX Data Ltd (OTCQB:SWISF) (CSE:SWIS), a Swiss-hosted secure data management and communications company, announced Tuesday that its board of directors has approved the issuance of up to 3.3 million units, which it expects to raise C\$400,000. The units, each containing a common share and a purchase warrant, are priced at C\$0.12 per unit. Each warrant entitles its holder to purchase an additional share at a price of C\$0.15 for a two-year term. If the company's closing price on the CSE is greater than C\$0.25 for 10 or more consecutive trading days, the company may notify the holders that their warrants will expire after 20 additional business days. The private placement is set to close by November 15th.

HealthLynked Corp (OTCQB:HLYK) announced Tuesday the launch of Oohvie, a new iOS application focused on women's healthcare. The company noted that women comprise half the population and have specific needs when it comes to tracking their menstrual cycles for event planning, pregnancy, and overall signs of wellbeing. Menstrual trackers are among the most downloaded medical apps with over 100 million downloads worldwide for similar applications. Oohvie offers unique features over competitive menstrual tracking apps, including the ability to connect with a user's healthcare provider and share menstrual cycle data.

Lucky Minerals Inc (CVE:LKY) (OTCPINK:LKMNF) on Tuesday announced the outlining of the Sherman Prospect, an area of significant quartz veining in Ecuador. Sherman lies approximately 6.6 kilometers (km) southwest of the Emma Prospect and results from rock chip samples confirm the alteration area has anomalous gold with samples up to 1.6 grams per ton (g/t) gold. "The team has outlined another significant prospect at Sherman," said CEO Francois Perron in a statement. "We are still in the early days of understanding how the gold is related to a set of veins that are being uncovered. What is important is not only the scale of size, of 20 km² but also the evidence of the presence of gold. I am very excited that our first campaign in this area has already confirmed enough potential to warrant more exploration work in the future. Our COVID-19 health & safety protocols continue to allow the team to be effective in the field."

DRDGOLD Limited (NYSE:DRD), a South African gold producer, saw a 45% quarter-on-quarter increase in gold production during the three months ended September 30, reaching 1,514 kilograms (kg) produced, according to an operational update from the company. The jump was due primarily to a 27% increase in tonnage throughput to 7.2 million tons and a 15% increase in yield to 0.209 grams per ton of gold (g/t). Total gold sold increased 60% to 1,522 kg.

Clean Seed Capital Group Ltd (CVE:CSX), the agricultural technology company, netted nearly C\$2.1 million in profit during its 2020 fiscal year, according to its year-end financials. In April, the Burnaby, BC-based company signed a milestone US\$5 million agreement with US-based AMVAC, an American Vanguard Company, to license its intellectual property related to its SMART Seeder and SMART Planter technologies for the US agricultural sector. It is the first such license issued by the company since its inception, Clean Seed told shareholders Tuesday.

Pure Gold Mining Inc. (CVE:PGM) (LON:PUR) said that ongoing surface exploration drilling near the PureGold Mine continues to establish greater continuity and expansion of gold mineralization with high-grade results returned from multiple drill holes targeting both resource upgrades and resource expansion outside the current mineral reserves. In addition, underground mine stope delineation drilling has intersected bonanza grades in areas targeted for first ore delivery and gold production from the mine.

BetterLife Pharma Inc. (OTCQB:BETRF) (CSE:BETR), an emerging biotechnology company currently preparing for clinical trials of AP-003, its interferon alpha 2b coronavirus (COVID-19) treatment, noted that its chief executive officer and founder, Dr Ahmad Doroudian has discussed the key differences between the interferon inhalation formula used by BetterLife against that used successfully by Synairgen PLC in an interview with Proactive. The Synairgen trials caused much excitement, strongly demonstrating that treatments using an interferon beta inhalation in COVID-19 patients significantly improved their condition and sped up recovery. BetterLife is due to start its clinical trials later this fall in Australia for AP-003, BetterLife's inhaled human interferon alpha 2b, in patients with mild to moderate symptoms of COVID-19. In the interview, Dr Doroudian, explains why the AP-003 formulation potentially represents a superior mode of treatment over interferon beta due to its proven anti-viral therapeutic. He also discusses: the recent merger between BetterLife and Altum; why the Company has chosen Australia to kick off its 150 patient clinical trial; and how using virtual monitoring technology will help BetterLife with patient recruitment. The interview can be accessed via the following link: <https://www.youtube.com/watch?v=YJ63LIXydsA&feature=youtu.be>
